EXPERIENCE

- Meru Technosoft Private Limited

Jun 2025 - Dec 2025

Frontend developer

gujarat, India

Led frontend development of a scalable accounting platform using React and Tailwind CSS, building reusable component-based architectures and optimizing performance to improve data accessibility and streamline user workflows. Ensured responsive, cross-browser compatible designs and smooth integration with backend services.
- Meru Technosoft Private Limited

Dec 2025 - Present

Frontend Developer

gujarat, India

Developed and optimized modern frontend applications using component-based architecture, focusing on performance, responsiveness, and usability. Designed scalable UI solutions, implemented efficient state management, and collaborated with backend services to deliver seamless, high-performance web experiences.

PROJECTS

- Pocket Legal Aid - AI-Powered Legal Awareness Platform

Nov 2024 - Feb 2025

Tools: React, Flask, Firebase, Gemini API, Hugging Face, OpenStreetMap, Tailwind CSS, Figma, Ngrok.

Built an AI platform with 100+ constitutional articles, interactive modules, and a chatbot that answered 500+ legal queries.

Improved search relevance by 40% using n-grams for contextual search.
- Marg Sarhi: S&T and R&D Coal Project Management System

Aug 2024 - Dec 2024

Tools: Next.js, Tailwind CSS, Pocketbase, MongoDB, Gemini, Figma

Developed a centralized platform for 100+ coal projects with real-time tracking and AI-driven assessments that improved decision-making efficiency by 70%.

Automated 80% of manual reporting, streamlining workflows and improving efficiency.
